

Advanced Web Intelligence® Reporting V4

Course Duration

1
Day

This course is designed to give delegates the comprehensive skills needed to apply more advanced query and reporting techniques when creating complex Web Intelligence® documents.

The course incorporates some of the features introduced into the Web Intelligence® application in recent years to give documents a more modern and up-to-date dashboard-type feel.

On completion, delegates will be able to:

- Use more advanced query techniques to request complex data sets.
- Use input controls and element linking to filter the data shown on a report.
- Create links to other Web Intelligence® documents.
- Change the behavior of aggregate variables using calculation contexts.
- Use some advanced variable functions.

Prerequisites

- Attended basic Web Intelligence® Reporting course

Or

- Have at least 2 months extensive experience building Web Intelligence® reports.

Practical work

Practical sessions are used extensively throughout this course to reinforce the topics covered. These allow delegates to have direct hands-on practice using more advanced techniques when creating Web Intelligence® documents.

Course Key Learning Points

Advanced Query Techniques

- Use complex filter operators 'Both' and 'Except'
- Creating combined queries
- Using sub-queries
- Creating a query based on another query

Input Controls

- Cascading input controls
- Input controls on measures
- Input controls for dynamic report display
- Element linking

Who should attend?

Experienced Web Intelligence® report designers needing:

- To create more advanced, sophisticated documents and/or
- To update their skills to incorporate the more modern reporting elements introduced in recent years.

Related and follow-on courses

None

Calculation Contexts

- Redefining Input, Output and Reset contexts
- Using keywords in calculation context definition

Useful Functions and Document Linking

- Running calculations
- League positions
- Using NoFilter and ForceMerge
- Linking one document to another

Customer Feedback

'It is the best training course I have ever attended.'

'The course was excellent – the lecturer displayed a thorough understanding of the subject matter, explained things very well and presented the course professionally.'

Acuma Education

All Acuma courses are delivered by trainers who are highly experienced consultant practitioners. This rich project experience coupled with professional training skills helps delegates to focus on how the course contents can be put into practice in their workplace. Acuma delivers courses from dedicated training facilities in Manchester, Birmingham and London, but also deliver training offsite using suites of laptops, with the option to customise courses to use your own business data and tailored to your exact training needs. The most appropriate training format depends upon your training objectives, number of learners, timescales, budgets and delivery logistics. Whatever your needs, Acuma will find the approach most suited to them.

Acuma Education's seal of quality is demonstrated through consistent achievement of the prestigious "Gold Standard" from the Learning and Performance Institute.

Acuma is an information Management (M) Specialist. Acuma is part of the Saksoft group and provides solutions, which are unique, flexible and cost-effective service blending local high value consultancy and global high quality project delivery. Acuma delivers business improvement by drawing together strategy, Technology and methods of information Management into a single philosophy called the information value model (IVM).
